#### **DETAILED ACTION**

## Status of the Application

1. Receipt is acknowledged of a response to a non-final rejection, which was dated on June 12, 2006.

# Status of the Claims

2. Claims 63-70 were pending. Applicants canceled claims 63-66 and 68. In addition,
Applicants amended claims 67 and 70. No claims were added. Therefore, claims 67, 69 and 70 are currently pending and examined on the merits.

## Withdrawn Rejections

3. The new matter rejection under 35 U.S.C. 112, first paragraph over claims 63-66 and 68 is withdrawn in view of Applicants' cancellation of those claims. Support for the currently claimed compounds can be found, for example, in originally filed figures 9-12. The objection to claim 67 is also withdrawn in view of Applicants' amendments thereto.

### Reasons for Allowance

4. The closest prior art of record does not teach or fairly suggest Applicants' claimed polypharmacophores or pharmaceutical compositions thereof. For example, although Dutta et al. (of record, see 12/29/04 office action) teach structurally similar compounds such as GBR12909 and GBR12935 (e.g., see Dutta et al., page 699, Chart 1), these compounds do not contain the currently claimed double bond or carboxylic acid groups. Furthermore, the prior art of record

Art Unit: 1639

does not teach or fairly suggest these modifications. Therefore, claims 67, 69 and 70 (renumbered 1-3) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
